

Dear Guest's Doctor,

Since 2003 Spa Gregorie's has partnered with Greet The Day (GTD), an Orange County based 501(c)(3) nonprofit organization improving quality of life for people affected by cancer through education and integrative oncology care, to offer a Spa Day Retreat for people in or with a history of cancer treatment.

The GTD Spa Day Retreat is a program that provides a morning of nurturing relaxation free of charge for people approaching the end of or who have recently completed their cancer treatment. This four-hour program includes a group activity (e.g. guided imagery, breathing exercises, gentle movement) followed by the option of either an individualized massage or facial performed by an **oncology massage accredited therapist**.

Many of our Spa Gregorie's therapists, massage, esthetician and nail technicians, have completed nationally accredited Society for Oncology Massage postgraduate training, and volunteer their time to provide the guest services for this program.

Cancer centers referring patients to our Spa Gregorie's GTD Spa Day Retreat include:

- Hoag Cancer Center Newport Beach
- Breastlink
- Mission Hospital Breast Center
- Hope Wellness Center
- Cancer Center of Irvine
- Orange Coast Memorial Medical Center
- University of California, Irvine, Chao Family Comprehensive Cancer Center
- UCLA Hematology Oncology

For more information about this program please visit www.GreetTheDay.org

Your patient has asked to be included in this much sought after program and required for patient participation is a signed physicians' release emailed by the specified date to the email address listed on the release.

Thank you,

Angela Cortright
Principal
